### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Yaté K. Cutliff on November 2, 2004.

The application has been amended as follows:

In the claims:

In claim 1, line 13 after "cold surface pressing" insert --,using the press ram,--.

In claim 1, line 14 delete ",using the press ram,".

In claim 1, line 18 after "mounting the" insert --structured--.

2. The following is an examiner's statement of reasons for allowance:

In light of Applicant's amendments to the claims and arguments presented on September 10, 2004, the claims are allowed.

While Falk discloses a method of apply a texture to a paper with a print laminated to a canvas, there is no suggestion to provide the structure to the laminate by cold surface pressing with a press ram and providing an elastic mat of uniform thickness between the press ram and the canvas.

Lang et al. (US Patent No. 5,182,063) discloses a method of embossing a printed sheet with a press, however the sheet is thermoplastic and as Applicant argues in the remarks on September 10, 2004, Lang uses two dies which teaches away the use of an elastic mat which would negate the effect of using two dies with a pattern.

Baratto (US Patent No. 5,721,041), Lang (US Patent No. 5,116,562), Lang (US Patent No. 4,971,743) are directed to thermoforming a plastic sheet.

Giorgi (US Patent No. 3,856,592) teaches a method of forming embossed photographs where a photoprint is laminated with a canvas and pressed to provide structure, however the pressing is with heat and the photo print is not placed with the image side down on the matrix.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
